

Zoëtry Montego Bay

An intimate get-away in the lap of Unlimited Luxury™, this resort features forty-six guest rooms, a spa, multiple pools, gardens, floating docks and specialty restaurants. The resort subtly captures the property's history; the Polo Bar alludes to the equestrian tradition in Jamaica, while the Canoa Bar is inspired by a huge marlin that was caught during construction.

The first phase of this renovation encompassed the redesign and refurbishing of all existing guest rooms and the construction of a new specialty restaurant and a spa. The second phase includes the addition of several new bungalows over the water.
